

# Light the Night

## Record & illuminate the situation

*Digital Ally's* DVF-500 is a complete audio/video system integrated into a tough, water-resistant, machined aluminum flashlight. Designed for effortless use, it features simple one-button activation and a wide-angle lens for easy aiming. The flashlight features two ultra-bright LEDs that may be activated singularly or simultaneously depending on the amount of light desired. The camera

exposure auto-adjusts to accommodate either illumination level, or officers may record without the lights on. The DVF-500 also features pre-event recording to capture the action and saves to vibration and impact-proof solid state memory. Recordings may be played on a monitor or via USB.
