

## ***Mount for digital video system model***

The *RAM* passive cradle for the FirstVu, a digital video system, is spring loaded and can be attached to a variety of RAM systems, allowing for the Digital Video System to be mounted in virtually any application. Easy to insert and remove from the spring loaded cradle, the FirstVu can

be kept safe, secure and ready in countless environments. RAM Mount rubber ball and socket technology allow for almost infinite adjustment and perfect viewing angles. RAM's design also dampens shock and vibration, helping to extend the life of the FirstVu.
