COVERT REAR SEAT CAMERA

Wide-angle low light color camera hidden behind the mirror glass. IR illumination for night recording.

D1 (720X480) HIGH RESOLUTION VIDEO

The latest h.264 codec & full D1 resolution to provide the best quality and ensure every detail is recorded.

ELECTRONIC LOCKING MEDIA DOOR WITH PIN CODE ACCESS

Keeps chain of custody and recorded evidence completely secure.

FOUR CHANNEL AUDIO RECORDING

Record 4 separate audio channels simultaneously.

INTEGRATED GPS WITH MARK FEATURE

Records and displays the vehicle's GPS coordinates. "MARK" important events such as evidence being thrown from a vehicle with exact coordinates.

INTERNAL BATTERY BACKUP

Provides 30 to 90 minutes of continuous operation in case of unexpected power loss.

INVISIBLE MONITOR WHEN NOT IN USE

The monitor is completely invisible to the driver when not being used. It can be turned on manually or set to automatically come on when record is activated.

PRE-EVENT RECORDING

Capture up to 60 seconds of the action from before activating the record mode.

RECORDS TO SOLID STATE MEMORY

Solid state memory provide the most durable and reliable medium for recording evidence because it does not have any volatile moving parts like hard drives, DVD drives and other mediums.

SOFTWARE UPGRADEABLE

Easily upgrade with free updates to the latest features and capabilities as they are developed.

STANDARD 900MHZ WIRELESS MIC

Compact design with excellent range, automatic activation option, internal microphone and automatic synching to other units.

TWO CAMERA SIMULTANEOUS RECORDING

Connect up to 4 cameras and record from 2 of them simultaneously.

ULTRA-BRIGHT SUNLIGHT VISIBLE MONITOR

1000 NIT 3.5" Color TFT monitor allows easier viewing in all conditions.

ULTRA-COMPACT COLOR FORWARD CAMERA

Ultra compact color camera design with 120X Digital Zoom and special low light night mode.

VIDEO MANAGEMENT OFFICE SOFTWARE INCLUDED

User-friendly software to allow audio/video playback, searching and retrieving, annotating, file management and archiving. DVM-750 includes VideoManager™ II with multi-window simultaneously recorded file interface.

VOICEVAULT™ ADVANCED WIRELESS MIC

Compact design with On-Board Memory for out of range recording, incredible extended range, an ear-piece for officer communication, integrated GPS with "mark" feature, date/time stamp, emergency help button, etc.
