

Digital Ally and MetLife Stadium Enter Into Multi-Year Video Solutions Agreement

Digital Ally to Provide MetLife Stadium with Body-Worn Cameras at all Events

Lenexa, KS | September 19, 2019

Digital Ally, Inc. (NASDAQ: DGLY), which develops, manufactures and markets advanced video recording products for law enforcement, emergency management, fleet safety and security, today announces a three-year contract with MetLife Stadium in East Rutherford, NJ. Digital Ally will provide certain MetLife Stadium security personnel with FirstVu HD body-worn cameras and back-end software management for all events hosted at MetLife Stadium.

Digital Ally will provide a video solution that includes deployment of its patented FirstVu HD body-worn cameras, training and support, along with maintenance and video management. The body-worn cameras will capture video and audio of conversations between security and fans with the goal being de-escalation of situations and evidence false to address complaints.

“After several successful deployments of Digital Ally’s body-worn cameras, we are pleased to announce Digital Ally as a provider in video solutions for MetLife Stadium. Our staff has been impressed with the usability of the hardware and back-end software,” stated Danny DeLorenzi, Vice President, Security and Safety Services for MetLife Stadium. “The goal of this initiative is to provide our staff with an extra tool when interacting with fans to create an overall better game day experience for everyone.”

“We are excited to continue our relationship with MetLife Stadium. Our unique product line provides stadiums and entertainment venues with increased accountability and transparency for both fans and staff members,” said Stan Ross, CEO of Digital Ally. “The video captured can be used to address complaints, provide liability protection or used for training purposes. Digital Ally continues to be recognized as an innovator not only in law enforcement but event security,” concluded Mr. Ross.

About Digital Ally

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Act of 1934. These forward-looking statements are based largely on the expectations or forecasts of future events, can be affected by inaccurate assumptions, and are subject to various business risks and known and unknown uncertainties, a number of which are beyond the control of management. Therefore, actual results could differ materially from the forward-looking statements contained in this press release. A wide variety of factors that may cause actual results to differ from the forward-looking statements include, but are not limited to, the following: whether the implementation of the body-worn cameras at MetLife Stadium will improve security personnel job performance and increase overall fan experience; competition from larger, more established companies with far greater economic and human resources; the Company's ability to attract and retain customers and quality employees; the effect of changing economic conditions; competition from larger, more established companies with far greater economic and human resources; and the effect of changing economic conditions; and changes in government regulations, tax rates and similar matters. These cautionary statements should not be construed as exhaustive or as any admission as to the adequacy of the Company's disclosures. The Company cannot predict or determine after the fact what factors would cause actual results to differ materially from those indicated by the forward-looking statements or other statements. The reader should consider statements that include the words "believes," "expects," "anticipates," "intends," "estimates," "plans," "projects," "should" or other expressions that are predictions of or indicate future events or trends, to be uncertain and forward-looking. The Company does not undertake to publicly update or revise forward-looking statements, whether as a result of new information, future events or otherwise. Additional information respecting factors that could materially affect the Company and its operations are contained in its annual report on Form 10-K for the year ended December 31, 2018, and in its Quarterly Report on Form 10-Q for the three and six months ended June 30, 2019, as filed with the Securities and Exchange Commission.
