

RELAY CONTROL HARNESS

INTRODUCING THE NEW STANDARD IN INTERLOCK & ANTI-THEFT

The patented Relay Control Harness, developed by Digital Ally, utilizes revolutionary technology to save valuable installation time, reduce installer liability and preserve the original vehicle warranty, when compared to traditional methods of installing an anti-theft device and alcohol interlock interface.

FEATURES & BENEFITS:

- Prevents voiding of manufacturer's warranty
- Easy-to-install with no special training required
- Dependable construction – hard-wired, soldered connections
- Utilizes OEM fuse protected circuitry
- Maintenance-free
- Allows remote-control of vehicle electrical system
