

FIRSTVU II

NEXT GENERATION BODY-WORN CAMERA

Digital Ally's FirstVu II body-worn camera utilizes the most advanced evidence capturing technology. The light weight, one-piece unit captures full HD video and audio, while offering industry leading features like an articulated camera head, a full-color display, an advanced image sensor, and GPS. The rugged design is capable of handling the harshest of environments. It boasts an IP67 rating resisting dust & wind and is water submersible for 30 minutes at a depth of 3 feet; is MIL-STD-810G compliant capable of handling drops, shock, and vibration; and will function flawlessly in an extremely wide temperature range.

FIRSTVU II FEATURES:

- Articulated Camera Head
- Full-color Display Screen
- GPS
- 12-Hour Battery Life
- Advanced Image Sensor
- Full HD 1080P Video Resolution
- H.264/H.265 - Highly Efficient Video Compression
- Multiple Mounting Options: chest, shoulder, helmet, magnetic, car-mount, etc.

 USB Type-C

Battery

Battery Life..... 12 hours
 Recharge..... 3 hours

Storage

Non-Removable..... 32GB

Durability

Drop Test 6 Feet
 Vibration/Shock MIL-STD-810G
 Dust/Water Protection IP67
 3 Feet for 30 min
 Operating Temperature -20°F to 140°F

DOCKING STATIONS

QuickVu

The QuickVu docking stations provide a comprehensive and elegant solution for storing and charging body cameras while uploading video evidence to the cloud. QuickVu also allows for rapid reviewing of footage right from the interactive touchscreen display.

Each model features:

- Built-in interactive touchscreen display
- Cold rolled steel construction
- Whisper quiet operation
- Fast offload speeds
- Configurable storage options
- Firmware pushed through the dock

QuickVu 24

Download Speed (At Full Load) 8.7MB/s
 Download Speed (Single Camera) ≥12MB/s
 Integrated Capacitive Touchscreen..... 21.5"
 Operating Noise 42dB
 HDD (Video Storage) 4TB
 16TB RAID
 72TB RAID
 RAID Available

QuickVu 8

Download Speed (At Full Load) >10MB/s
 Download Speed (Single Camera) ≥12MB/s
 Integrated Capacitive Touchscreen..... 8"
 Operating Noise 35dB
 HDD (Video Storage) 1TB
 4TB
 16TB
 RAID None

CLOUD STORAGE

EVO WEB PORTAL

Complete Evidence Management: Evo Web Portal is powered by Amazon Web Services, making it the most secure cloud-based evidence management platform on the market. Law enforcement agencies, commercial fleets, and venue security can quickly and easily upload and manage video evidence with highly-secured chain of custody reports.
